

RECLAIM *the* REPUBLIC.
RESTORE *the* CONSTITUTION.

The Kansas Legal Tender Act Needs Your Help!

The Kansas Legal Tender Act, SB 39 (Senate Bill 39) was introduced again last year as a good, clean, straightforward bill.

SB39, as introduced, will eliminate the Kansas capital gains tax on sales of gold and silver, and will declare U.S. minted gold and silver legal tender, as required by the Constitution.

The good news is that it passed out of the Senate and is now in the House Committee on Financial Institutions and Pensions.

The bad news is that a toxic amendment was added to the bill on the Senate floor last year. This amendment appears to subject small gold and silver dealers across Kansas to additional regulations that could shut them down.

And several paid lobbyists testified IN FAVOR of this amendment, and some even threw insults at the grassroots folks who demanded that this toxic amendment be removed!

It appears that these paid lobbyists are willing to possibly destroy small gold and silver dealers in Kansas to grow profits of their sponsors.

And, most sadly, it appears that the committee chair was trying to keep the toxic amendment in the bill, in spite of the grassroots clearly telling him it had to go!

That is why it is essential that you contact committee chair Mike Hoheisel and vice-chair Angela Stiens to DEMAND that the toxic amendment be stripped from the bill, and that SB39, as INTRODUCED, be passed out of committee without any further amendments!

Chair Nick Hoheisel
785 296-7689
Nick.Hoheisel@house.ks.gov

Vice Chair Angela Stiens
785-296-7675
Angela.Stiens@house.ks.gov

Please contact the committee chair and vice-chair IMMEDIATELY, as the bill could be voted on in their committee in just days.
